

I have 24 p.

I divide it equally between 2 friends.

How much will they get each?

I have 24 p in 2 p coins.

How many 2 p coins do I have?

Consider the two questions above.

What is the same and what is different?

Tommy and Annie have some counters.

Tommy shares his counters into 2 equal groups.

He has 15 in each group.

Annie groups her counters in twos.

She has 19 groups.

Who has more counters and by how many?

How did you work it out?
