

Hedgehog class homework -Summer 1 Journeys

These are not compulsory but doing some with your child will help enhance their understanding of the learning we are doing in class.

It would be lovely to share your experiences on Seesaw

<p>Look through some old photos of journeys you have been on with your child and talk about the type of transport you went on. Discover what your child's favourite type of transport is.</p>	<p>Plan a journey with your child to somewhere local e.g. the nearest town to visit family or go to the shops. Take your child on the bus or train so they can experience going on public transport with you.</p>
<p>Go and visit a transport museum locally https://www.culturetrust.com/venues/stockwood-discovery-centre (worlds largest carriage collection) or further afield https://www.ltmuseum.co.uk/</p>	<p>Create an amazing vehicle using your imagination. Support your child using arts and crafts , construction kits or materials you have at home to create the vehicle of their dreams! Can they explain what all the parts are for and how it works, how it moves etc.</p>
